

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	01 NOV 2025
Team ID	NM2025TMID06837
Project Name	Calculating Family Expenses using Service now
Maximum Marks	4

Functional Requirements

S.No	Functional Requirement	Story / Sub-Task
FR1	Expense Submission	User submits expenses in categories (food, rent, education, utilities) via a web form.
FR2	Edit/View Expenses	User views and edits recorded expenses.
FR3	Expense Calculation	System automatically calculates monthly/category-wise totals.
FR4	Budget Alerts	System sends alerts when expenses exceed defined budget limits.
FR5	Expense Reports	User downloads monthly and category-wise expense reports in PDF/Excel format.
FR6	User Authentication	Only authorized family members can access and modify the expense data.

Non Functional Requirement

S.No	Non-Functional Requirement	Description
NFR1	Usability	App interface must be simple and user-friendly for all family members.
NFR2	Reliability	System must operate without loss of data and generate correct calculations.
NFR3	Security	Expense data must be protected and access restricted to authorized users.
NFR4	Performance	System should process and show reports instantly, supporting multiple users.

5	Scripting (Optional)	Custom business logic and validations	JavaScript (Business Rules/Script Includes)
6	Documentation	Project documents and reports	Microsoft Word, PDF
7	Version Control	Sharing and versioning of team documents	Git, GitHub

Table 2: Application/Subsystems/Modules

S.No	Module/Subsystem	Description	Technology/Tool
1	Expense Entry	UI for users to add/edit their expenses	ServiceNow Web Form
2	Expense Management	Store, process, and update expense records	ServiceNow Table, Flow Designer
3	Report & Notification	Create downloadable reports and send alerts for budget limit	ServiceNow Reporting, Notifications
